.....

I am a recent graduate of the University of Arizona Full Stack Web Development Boot Camp. I am a Full Stack Web Developer with an intense passion for coding and problem solving.

TECHNICAL SKILLS

Languages: HTML, HTML5, CSS, CSS3, Bootstrap, JavaScript, jQuery, React, Node, Express, MySQL, MongoDB, Handlebars, Sequelize, AJAX, JSON, Web API.

PROJECTS

Trivia with Friends | Back-End Developer

Github Link: <https://github.com/dazacher/Trivia-With-Friends> |

Deployed Link: <https://dazacher.github.io/Trivia-With-Friends/>

- First major team project at school. We made a Trivia game allowing the user to select the topic, number of questions, and difficulty level. Based on the answers to the randomly generated questions, a sound clip would play and a giphy would display if the answer is wrong or right.
- Assisted entirely with backend. Created the Web API and AJAX call that created the game and generated the randomized questions. Assisted the rest of the team in any way I could to overcome roadblocks and debugging.
- **Tools/languages used:** Bulma CSS, jQuery, API's, SoundManager 2, AJAX, JSON, GitBash, GitHub.

Cost Tracker |

Github Link: https://github.com/olegaposh/my_cost_tracker |

Deployed Link: <https://my-cost-tracker.herokuapp.com/>

- App created as a financial tracker. This allows the user to enter their receipt details including the store name, date of the purchase and transaction amount thus allowing the user to keep a close eye on their spending.
- Created the MySQL database, tables and connections. Assisted the team to overcome roadblocks and debugging.
- **Tools/languages used:** MySQL Database, Sequelize, Handlebars, jQuery, Bootstrap, Node.js.

EDUCATION:

Full Stack Web Development Certification – University of Arizona, Gilbert, Arizona (2020)
High School Diploma – Show Low High School, Show Low, Arizona (2007)
